

CLIL for Grade 10 - Geography

Name: _____

Section: _____

Theme: Understanding the uses of map projections and how culture/al regions are formed

Content Area: Geography

Content Focus: How to use planar/azimuthal projection to identify countries from Taiwan in a 4,000-kilometer radius

Communication: Vocabulary

Technical words

| | |
|-----------------------------|------------------|
| Planar/Azimuthal projection | Latitude |
| Cylindrical projection | Longitude |
| Conic projection | Kilometer radius |

Language functions

Describing distances
Comparing and Contrasting

Cognition: Identifying countries and estimating distances using planar or azimuthal projections

Investigating similarities and differences of cultures through research

Culture: Understanding how countries' geographical location show some similarities and differences of language, dress, food, and other.

Number of Lessons: Three

Note: Wait for your teacher's instructions on how to complete the activities.

5. Which of the following projections is appropriate to use when estimating correct distance? Why?

A. Cylindrical

B. Conic

C. Planar /Azimuthal

Reason:

LESSON 2

Group Activity: Identify all countries in each cardinal point outside Taiwan within the 4,000 kilometer-radius using this [link](#) OR type <https://ns6t.net/azimuth/> in your browser; but first, find out Taiwan's latitude and longitude online.

Taiwan's latitude: _____

Taiwan's longitude: _____

| Cardinal Points | Countries within 1000 km radius | Countries within 2000 km radius | Countries within 3000 km radius | Countries within 4000 km radius |
|-----------------|---------------------------------|---------------------------------|---------------------------------|---------------------------------|
| North | | | | |
| West | | | | |
| South | | | | |
| Southwest | | | | |
| East | | | | |

Individual Activity: Choose two countries based on the table found in page 3, and write the information about their distances from Taiwan in sentences using the expressions below:

We use prepositions to show **how far** things are:

*Birmingham is 250 kilometres **from** London.*
*Birmingham is 250 kilometres **away from** London.*
*It is 250 kilometres **from** Birmingham **to** London.*

Sometimes we use an adverbial of distance at the **end of a clause**:

*We were in London. Birmingham was 250 kilometres **away**.*
*Birmingham was 250 kilometres **off**.*
*London and Birmingham are 250 kilometres **apart**.*

1. _____
2. _____

LESSON 3

Group Work Activity: Find out some similarities and differences of Taiwan's culture (language, food, dress, tribes, etc.) to other countries within the 4,000 km. radius. Follow the guidelines and example below.

1. Narrow down your topic. Use the space below to show your flowchart.

Example:

Indigenous peoples in Taiwan

Seediq tribe in Taiwan and Bontoc tribe in the Philippines

Similarities and Differences between the dress of the Seediq tribe in Taiwan and the Bontoc tribe in the Philippines

2. Search and read much information as you can from the specific topic that you came up with. Use the space below to take down notes. Do not forget to include the sources of your information.

3. Present key information about the specific topic that you have chosen to investigate using pictures and a table. Use MSWord for your presentation.

Example:

Title: The dress of the Seediq tribe in Taiwan and the Bontoc tribe in the Philippines

The dress of the Seediq tribe in Taiwan

The dress of the Bontoc tribe in the Philippines

| Seediq and Bontoc tribes | Similarities | Differences |
|--------------------------|--|---|
| Female native dress | hand-woven color and textile fabric pattern top | pattern and design Seediq: pants Bontoc: skirt |
| Male native dress | hand-woven color and textile fabric pattern | pattern and design Seediq: top Bontoc: loin clothes |

4. While making presentations of similarities and differences, use some of the following expressions below in making comparisons and contrasts:

Similarities:

- X is like Y with respect to ____
- X is similar to Y in terms of ____
- X and Y are similar as far as ____ is concerned
- X resembles Y in ____

Differences:

- X differs from Y regarding ____
- X is different from Y with respect to ____
- X is unlike Y as regards ____
- X contrasts with Y regarding ____
